

The Village Hall

We've made a start:

You may have noticed the new plant pot bank at the side of the village hall. Please feel free to donate cleaned plant pots or take what you need to use.

We have a new village noticeboard in the bus shelter. Kindly provided by the Parish Council in support of our project and a place for general village notices.

Next Steps:

- Key areas for focused development:
- The Village Hall
- The Village Entrance Roads
- The Village Memorial area
- The Quoits area
- Bulb Planting in areas where there are few or no blooms
- The Pinfold

Who We Are

About Us

Following an initial meeting in July 2022 to gauge interest in the village becoming involved in Britain in Bloom, a steering group of volunteers was formed, along with a list of potential helpers.

Steering Group Members are:

Tim Anderson, Janet Boakes, Gina Claydon, Pol Heath, Maria Ramskill, Claire Seaborne, Jean Tock, Lynn Witham and Linda Newsome.

Lavender—our first unifying plant

HUNTON IN BLOOM

***VILLAGE COMMUNITY PROJECT
OUR NEIGHBOURHOOD***

2022-2024

The Village Memorial Area

Our Vision:

“We aim to enhance the beauty of our village in a way that is in keeping with its rural setting. We will do this in a way that is sustainable, encourages biodiversity and engages with the whole community”

Our theme is Plants for Pollinators with Lavender chosen as our first unifying plant for its rich foliage, wonderful scent and ease of growing

What is this all about?

Britain in Bloom has two key categories that apply to Hunton. We have chosen to enter a category called “It’s your neighbourhood” which is aimed at small groups who are just starting out.

Judging - **Community participation** - evidence of the involvement of local people in the process of improving their area. **Environmental responsibility** - caring for the local area and minimising impacts on the environment, promoting sustainability and conservation and developing community green spaces.

Gardening achievement – gardening which enhances the locality for the community and

It’s about more than just gardening and there are opportunities for the whole village to come together and improve our lovely environment.

What do we want to achieve?

Clearly, we can’t do everything at once. We envisage that this will be an ongoing and sustainable project set out in phases. Our first phase is to focus on the centre of the village starting with the areas surrounding the village hall and the greens where the three village roads merge.

The Village Centre Triangles

it is hoped that the project will provide a unifying opportunity for our village community to come together and enhance our village environment for existing and future generations.

What can you do to help?

- Raise Funds
- Sponsorship of planters
- Develop an area with your group
- Share your skills
- Help with manual tasks
- Share ideas
- Provide plants for planting schemes
- Plant Lavender
- General maintenance of areas
- Join in village workdays
